Target version:			
Resolution:	Wont fix	**Affected version:**	

Description

I am having problems saving special characters in the Redmine Settings hash variable from a plugin.
The offending line resides in settings_controller.rb:

```
Setting.send "plugin_#{@plugin.id}=", params[:settings]
```

with the following error:

```
Psych::SyntaxError (special characters are not allowed):
  app/models/setting.rb:95:in `value'
  app/models/setting.rb:115:in `[]='
  app/models/setting.rb:145:in `plugin_redmine_xxx='
  app/controllers/settings_controller.rb:58:in `plugin'
```

I do not get any errors saving special characters in the Redmine Welcome Message which is also saved in the Redmine Settings hash variable.

My environment is as follows:

- Windows Server 2008
- Redmine 2.0.2
- Java JDK 1.6.0_31
- MySQL Community Edition 5.5.23
- Torquebox 2.0.3
  - JBoss AS 7.1.1.Final
  - JRuby 1.6.7.2 (Ruby 1.9 Mode)

History

#1 - 2018-10-09 15:05 - Marius BĂLTEANU

- Status changed from New to Closed

- Resolution set to Wont fix

Jruby is no longer supported starting with Redmine 3.0.0.
