Description

Is it possible the user to see the problem only members of the group? A user "developer" has seen the problem of all groups.

History

#1 - 2015-10-06 09:36 - Виктор Воеводский

As part of the project are connected by different organizations. There is a need that they are not seen by the task each other. Since each organization is a separate group, it is necessary that users see only the tasks of their group.
