Redmine - Defect #21457

Issue percentage done not updating correctly when calculated from subtasks

2015-12-08 11:13 - Stephane Evr

Status:	Closed	**Start date:**	
Priority:	Normal	**Due date:**	
Assignee:		**% Done:**	0%
Category:	Issues	**Estimated time:**	0.00 hour
Target version:			
Resolution:	Duplicate	**Affected version:**	3.1.0

Description

Here are some of my issue statuses:

issue_statuses.PNG
Activity TBC is the status per default, and no % done is associated.

These are my parameters in issue tracking:

issue_tracking.PNG
- Issue done ratio is associated to the issue status
- % done is calculated from subtasks.

Now I create an issue "t1", with "Activity TBC" status (no % done associated):

t1.PNG
Then I create a subtask s1 with status "In progress 40%".

My t1 task looks like this (all fine):

t1_2.PNG
Then, I manually change the status of t1 to "Started 20 %". Everything is still OK, % done of the parent task takes precedence over subtasks:

t1_3.PNG
But Now, I want to change the status of t1 back to "Activity TBC", with no % associated:

t1_4.PNG
Expected: % done of t1 should be calculated from its subtasks (here 40%) since no % is longer associated with it

I have encountered this problem with redmine versions 3.x (also with redmine 3.2.0)

My production configuration:
