Redmine - Feature #22122

Display Subprojects as a list in the project's Overview tab

2016-03-01 15:31 - Jonathan Vargas

Description

When you have many subprojects, the Overview page exposes the subprojects just separated by comma on the same text like, which doesn't look good.

I'd suggest a unordered list, and place the subprojects view below the issue tracking summary, not on top of it.

+1

I agree to the proposal for changing the subprojects section to an unordered list although I don't think it's necessary to show it that way in the default theme. The current view is also achievable with list items and it makes the view more flexible for theme designers who can then choose which style they prefer.

#4 - 2018-07-29 13:48 - Bernhard Rohloff

I proposed a patch series in #29289 with which this could be achieved by CSS modifications only.

#5 - 2018-07-30 12:09 - Go MAEDA

- Is duplicate of Patch #8383: Display subprojects as individual unordered list items on project overview added
