### Redmine - Feature #11498

# Add --no-account-notice option for the mail handler script

2012-07-24 14:26 - Alex Shulgin

Assignee: Jean-Philippe Lang % Done: 0%

Category: Email receiving Estimated time: 0.00 hour

Target version: 2.3.0

Resolution: Fixed

# Description

Sometimes you want to set up a project which accepts email from new users (as in --unknown-user=create,) but you don't want Redmine to reply with account information for the newly created users (to avoid mailing back to spammers, etc.)

This patch adds a Redmine's mail handler script option just for that.

#### Associated revisions

### Revision 11525 - 2013-03-03 09:41 - Jean-Philippe Lang

Mail handler: adds --no-account-notice option for not sending account information to the created user (#11498).

### Revision 11581 - 2013-03-10 13:36 - Jean-Philippe Lang

Merged r11525 from trunk (#11498).

#### History

### #1 - 2013-01-15 12:47 - Gregory Engels

+1 (please add this patch to the main release - we need this feature)

### #2 - 2013-02-26 03:40 - Arnis Juraga

I think this is duplicate: #10178

# #3 - 2013-03-03 09:42 - Jean-Philippe Lang

- Tracker changed from Patch to Feature
- Subject changed from Added --no-account-notice option for the mail handler script to Add --no-account-notice option for the mail handler script
- Status changed from New to Resolved
- Assignee set to Jean-Philippe Lang
- Target version set to 2.3.0
- Resolution set to Fixed

Feature added in r11525, thanks.

# #4 - 2013-03-10 13:36 - Jean-Philippe Lang

- Status changed from Resolved to Closed

Merged.

# #5 - 2013-03-18 13:16 - Terence Mill

2024-05-21 1/2

Howto expanded: RedmineReceivingEmails

#### #6 - 2013-04-07 22:05 - Brandon Bertelsen

This feature doesn't seem to work in cron. Example:

\*/30 \* \* \* \* \* cd /usr/share/redmine && rake redmine:email:receive\_imap RAILS\_ENV="production" port=993 ssl=true host=imap.gmail.com username={} password={} project=Support status=New priority=High tracker=Support unknown\_user=create no\_permission\_check=1 no\_account\_notice=1

The above still sends account notification emails to new email addresses.

### #7 - 2013-04-08 15:46 - Alex Shulgin

- File Fix-email-rake-tasks-to-also-support-no\_account\_notice-option.patch added

The above still sends account notification emails to new email addresses.

Hm, indeed. The fix is trivial (attached.)

Now that I think about it, why don't we extract the options thing from the 3 rake tasks, like so:

```
task :setup_options => :environment do
    @options = { :issue => {} }
    %w(project status tracker category priority).each { |a| @options[:issue][a.to_sym] = ENV[a] if ENV[a] }
    %w(allow_override unknown_user no_permission_check no_account_notice).each { |a| @options[a.to_sym] = EN
V[a] if ENV[a] }
    end

task :read => :setup_options do
    MailHandler.receive(STDIN.read, @options)
```

Ugh, sorry: not enough coffee. Attaching the correct patch.

### #9 - 2013-04-08 16:03 - Etienne Massip

Could you please post a new issue since this one has been closed for 2.3.0?
