Description

It would save time and ease use to have the ability to upload multiple files at the same time (instead of 1 at a time).

To see an example, see http://www.aceproject.com. In particular, you can see the ability upload multiple files in the demo:

http://www.aceproject.com/demo/server01/Tab2.asp under the Documents module on left navigation.

(Ace Project has a French version too!)

Any thoughts?

Todd

Good idea. It will be added in the next release.
Thx.

#2 - 2006-12-30 11:00 - Todd McGrath

I checked out the latest from Trunk today. Wow! Looking good! Great work!

Comment- I see multiple file upload on Issues module now. Perfect.

Do you plan to add this multiple file upload functionality to Documents and File modules as well?

Is this something I can help with?

Hope you are enjoying the holidays,
Todd

#3 - 2006-12-31 12:15 - Jean-Philippe Lang

If you find it usefull, i'll add this feature in the others modules for the next release.

Jean-Philippe
