**Description**

Using a Wiki link with a different name in the table of Markdown, the link was broken.

screenshot.png
I am using the Docker official image.

```
Environment:
  Redmine version                3.4.6.stable
  Ruby version                   2.4.4-p296 (2018-03-28) [x86_64-linux]
  Rails version                  4.2.8
  Environment                    production
  Database adapter               PostgreSQL
```
