Target version:	5.0.0		
Resolution:			
Description			
This patch, which should be applied on top of those from #1237 , adds a flag to groups so 2FA can be globally optional, but required for certain groups of users.

#6 - 2021-06-22 22:55 - Marius BĂLTEANU

- File deleted (0001-Rebase-patch-from-23653.patch)

#7 - 2021-06-22 22:57 - Marius BĂLTEANU

- File 0001-Rebase-patch-from-23653.patch added

I've updated the patch for the current trunk and I made two changes:
1. Remove the empty setup do end from test/integration/twofa_test.rb
2. Added a check in app/view/groups/_form.html.erb in order to not display the "Require two factor authentication" field for builtin groups (Anonymous and Non Member) because the option won't make any sense for those groups.

[Jens Priesen](#) Krämer, please take a look over my changes, I would like to commit this as soon as possible if the changes look good to you.

#8 - 2021-07-01 11:48 - Jens Krämer

looks good to me!

#9 - 2021-07-04 15:09 - Marius BĂLTEANU

- Status changed from New to Resolved

Committed the patch. Thank you for your contribution.
