Description

Like stated in the subject, these two versions are missing due dates here on redmine.org. This makes that they show up in places where they shouldn't (see eg. the bottom of the version list on the roadmap sidebar).

Please set the correct release date (2022-03-28, Redmine 5.0.0, 4.2.5 and 4.1.7 released) as their due dates to fix this issue. Thanks in advance.

History
