Resolution:			
Description			
<p>Improved tooltip in Redmine 4.1.0 (#31441) causes a Javascript error on some (self-made) plugin pages using the "title" attribute. This is caused by the absence of the tooltip() function in the "title" attribute. By inserting a judgment statement as follows, errors will not occur.</p>

Could you give some examples of plugins that cause the problem?

#2 - 2020-04-20 07:01 - Anonymous

Try this forked plugin.

<https://github.com/n0nel/Redmine-Monitoring-Controlling>

(default branch: redmine4.1)

After installing, click "Monitoring & Controlling" tab, then javascript error will occur.
