Description

Hi, after upgrading to 3.4.0 (a few minutes ago, thanx for release!!!) I found that our projects are somehow listed in header.
I tried to disable all the plugins - it didn't helped.
Next, I tried to play with different Themes and found that:

- Affected
  - Alternate
  - Classic
  - A1 (RedmineUp)
  - Circle (RedmineUp)
- Not affected
  - Default

Can I somehow help a liitle bit more?
