- Status changed from New to Needs feedback

Please see submissions.

#2 - 2017-07-24 14:04 - Randa Bustami

- File redmine version.PNG added

attached screenshot for our redmine version
do u need anything else pls ?

#3 - 2017-07-24 15:43 - Toshi MARUYAMA

- Category deleted (Translations)

Try without plugins because Redmine core does not provide i18n custom fields feature.

#4 - 2017-07-24 15:50 - Randa Bustami

- File plugin.PNG added

sorry i didn't get your point, u means i have to delete all the plugins i installed (see attached pic)

Yes. But on test environment.

#6 - 2017-07-25 10:12 - Randa Bustami

thank you for your feedback , but what is the relation between plugins and the custom fields ?
i notice this problem before i installed any plugins, i had added the plugins recently.

As I said, Redmine core does not provide i18n custom fields feature.
So custom field name should not be translated to any languages.

thank you for your feedback, issue is i donot want to be translated but just i want to delete the sentense **"translation missing: en."**++ from the column header at excel only (pls see missing translation error image i had attached before"
many thanks
