

Redmine - Defect #38915

Duplicate spacer id in jsToolBar

2023-08-05 08:30 - Yasu Saku

Status:	Confirmed	Start date:	
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	Wiki	Estimated time:	0.00 hour
Target version:	Candidate for next major release	Affected version:	
Resolution:			
Description			
<p>Currently, each spacer in the jsToolBar is assigned an ID. However, when there are multiple wiki editing areas on a page, this causes issues due to the duplicated IDs. Therefore, to address this problem, I have created a patch that replaces the ID with a class name as one of the proposed fixes.</p>
