Redmine - Feature #2984

Emails from redmine should include headers that don't trigger vacation auto-responders

2009-03-16 17:10 - Guy Bolton King

Target version:	0.8.3		
Resolution:	Fixed		

Description

I'm afraid the fix proposed in #2879 doesn't work for Outlook/Exchange. My apologies for not doing enough research! Ticket 5288 in the trac project, and the end of this post on the MS Exchange Team blog suggest that adding:

```
Precedence: bulk
```

...to outbound emails will do the trick.

(I haven't re-opened #2879 since the subject line would have been misleading).
