

Redmine - Feature #28412

Reject plugin same ID with registered one

2018-03-24 04:41 - Sho HASHIMOTO

Category:	Plugin API	Estimated time:	0.00 hour
Target version:	Candidate for next major release		
Resolution:			
Description			
Redmine can register plugin same ID with registered one. Currently, below problems exist.			
<ul style="list-style-type: none">• @registered_plugins[id] is overwritten.• /admin/plugins shows only one plugin• but load_path, view_path, ... are changed			
I want to reject and log warning second or later plugins.			
functional/settings_controller_test.rb was already registered foo plugin twice. I cleared on teardown to pass unit test.			
This ticket related to #27705 .			

History

#1 - 2018-04-02 07:01 - Go MAEDA

- Category changed from *Plugin Request* to *Plugin API*

- Target version set to *Candidate for next major release*

We see the following error when plugin IDs conflict. It is difficult to debug. I think the patch helps to find the cause of such problems.

```
$ bundle exec rails c
/path/to/redmine/lib/redmine/menu_manager.rb:370:in `add_at': Child already added (RuntimeError)
  from /path/to/redmine/lib/redmine/menu_manager.rb:387:in `add'
  from /path/to/redmine/lib/redmine/menu_manager.rb:305:in `push'
  ...
```
