Target version:	Candidate for next major release			
Resolution:				

Description	
Preventing the ability to add notes to closed issues prevents the problem of resuming work with the status closed. If you change the status to something other than closed, such as Reopen, you can add notes.

The attached patch adds the add_note_to_closed_issue permission.
Only if you do not have the add_note_to_closed_issue permission, you cannot add notes to closed issues.

Maybe this should be controlled by a tracker base rather than permission. To me, whether to accept comments or not when the issue is closed appears to be an element that defines the nature of an issue.
