Redmine - Defect #39747

Diff of a javascript file in repository module is not displayed with layout

2023-11-29 08:14 - Marius BĂLTEANU

Status:	Closed		**Start date:**	
Priority:	Normal		**Due date:**	
Assignee:	Marius BĂLTEANU		**% Done:**	0%
Category:	SCM		**Estimated time:**	0.00 hour
Target version:	6.0.0			
Resolution:	Fixed		**Affected version:**	5.0.2

Description
The issue reported in #37626 reproduces now again no current trunk because the workaround was reverted. We should properly fix that issue now.

FWIW: I just created a history of this issue. See the following table:

Issue	Fixing revision	Released in Redmine	Notes

[Defect #11325: Unified diff link broken on specific file/revision diff view](#)	[r9909](#)	[2.0.4](#)	
[Defect #30850: Unified diff link broken on specific file/revision diff view](#)	[r17962](#)	[4.0.4](#)	
[Defect #31141: SCM: error when *.yml and *.txt show](#)	[r18206](#)	?	side-effect of [#30850](#), unsure if [r18206](#) was ever merged to a stable-branch
[Defect #32449: Diff view for .js files in repositories is broken](#)	[r19531](#)	[4.0.7](#)	
[Defect #37626: Diff of a javascript file in repository module is not displayed with layout](#)	[r21883](#)	[5.0.3](#)	
[Defect #37732: Fix "DEPRECATION WARNING: Rendering actions with '.' in the name is deprecated" in RepositoriesController](#)	[r22489](#)	[6.0.0](#) (as part of [#36320](#))	
[Defect #39747: Diff of a javascript file in repository module is not displayed with layout](#)	n/a	[6.0.0](#)	

Given the recurrency of the issue I think this needs a good look for the root cause(s) of it and needs a proper, enduring solution for the observed behaviors (within the moving boundaries of the Rails framework over time).

#5 - 2023-11-29 10:16 - Marius BĂLTEANU

Thanks Mischa, very useful!

I've already found the root cause, but I need to add and make more tests just to be sure that we have covered the known cases.

- Status changed from New to Resolved

- Resolution set to Fixed

#10 - 2023-12-26 16:58 - Marius BĂLTEANU

I'm not sure why I was not able to reproduce the issue using a functional test, so I covered this using a system test. The reported problem should be fixed now un trunk, please let me know if you find any issue.

I'm not sure if it's related nor which functional test you mean, but I'm not sure at all whether any subversion repository fixture data from [source:/trunk/test/fixtures/repositories/subversion_repository.dump.gz](#) is actually used at all on Redmine CI runs given that the [log entries](#) of green builds are outputting:

    svn: E155036: Please see the 'svn upgrade' command
    svn: E155036: The working copy at '/var/lib/jenkins/workspace/trunk/DATABASE_ADAPTER/mysql/RUBY_VER/ruby-3.2' is too old (format 8) to

work with client version '1.9.3 (r1718519)' (expects format 31). You need to upgrade the working copy first.

I referred to my local environment where I tried to add a test to repositories_subversion_controller_test.rb (source:trunk/test/functional/repositories_subversion_controller_test.rb), but the problem didn't reproduce. Anyway, I think the system test is good enough.
