<b>Description</b>			
Users can't add new attachment form due to Javascript error on IE 6 and 7.			
It seems there's mis-use of the Prototype.js at redmine's application.js			
On addFileField() method, "document.createElement()" method must be replaced with "new Element()".			
<pre>function addFileField() {   //...   //var s = document.createElement("span"); // This should be changed as   var s = new Element("span");   //... }</pre>
