Not related to this migration. Even if you remove it, you'll get the same error et the end of db:migrate.
The stack trace is odd and the migration is actually executed fine. I can't see the problem in Redmine.

Description has two problems.
First problem is duplicate with #10818.

#7 - 2013-02-13 15:59 - Lawrence Krubner

I am still getting this error:

Rails 3.2.11
Ruby 1.9.3
Centos 6.3
