# Redmine - Feature #10352

## Preview should already display the freshly attached images

| **Resolution:** | Fixed | | |

**Description**

When e.g. entering an issue comment with the text

```
Look at this: !A.npg!
```

and *at the same time* adding the new attachment A.png, I would be good if the comment preview already displayed the inline image.

*- Category set to Text formatting*

*- Target version set to Candidate for next major release*

Agree.

HTML 5 API allow standard loading of images with JavaScript but preview is generated by server so it might still require a file upload.

Yes, this is really much needed. I 'voted' for this feature using Paypal:

> !2012-05-16 00.10_scr_06.png! =)

Se also issue #7979.

*- Category changed from Text formatting to Attachments*

*- Target version changed from Candidate for next major release to 2.3.0*

**#4 - 2013-01-12 19:20 - Etienne Massip**

*- Resolution set to Fixed*

Should be totally ok now that #12642 has been fixed, it would be great if somebody could take some time to test it.

*- Status changed from New to Closed*

I'm closing this one.

I just retrieved the current trunk r11175 and it worked! Thanks for the hint!

The requested functionality is implemented in r11133. It will work on newer browsers (IE10> and FF, Chrome, Safari - see #12642).

More like in r10977, r11133 is a fix for preview.

#### #7 - 2013-01-12 19:42 - Daniel Felix

Ah yes! Thanks for correcting me! :-)
