

## Redmine - Feature #1038

### Add repo url to repository view

2008-04-10 20:11 - Carl Nygard

<b>Status:</b> Closed	<b>Start date:</b> 2008-04-10
<b>Priority:</b> Normal	<b>Due date:</b>

<b>Category:</b> SCM	<b>Estimated time:</b> 0.00 hour
<b>Target version:</b>	
<b>Resolution:</b> Duplicate	
<b>Description</b> It's useful to know exactly which part of the repo a project is attached to. This patch adds the repo url from the configuration to the top "crumbs"	
<b>Related issues:</b> Is duplicate of Redmine - Patch #232: SCM URL/ROOT Information on Repository ... <b>New</b>	

#### History

##### #1 - 2008-05-31 02:40 - Karl DeBisschop

Nice idea.

In our case, however, redmine accesses the SVN as file whereas we want the users to see the [https:// form](#) of the repo.

I'm rather out of my element in ruby. What would it take to allow the published URL to be different than the internal access URL?

+1

We should have an internal repository url used by redmine bringing browsing capabilities and an external repository url displayed on the home page. A workaround is to create a custom field on project (e.g. SCM URL).

##### #3 - 2008-11-11 10:40 - Jean-Philippe Lang

- Target version deleted (0.8)

##### #4 - 2010-07-05 15:28 - Holger Just

- Status changed from New to Closed

- Resolution set to Duplicate

This is a duplicate of [#232](#).

The functionality is provided by my [Redmine Checkout plugin](#)
