Redmine - Feature #10645

Need an option to omit Closed issues in search results

Description

Redmine is a fantastic system, that combines simplicity and power.

Our redmine database contains ~3000 issues (2500 of them are closed). I often look for open issues according to a Quick search team.

Redmine displays **All** issues including the **Closed** ones, and I need to filter **Open** issue them by my eyes, and often click on the Next link below the search results.

Could you please add an option to display only Open issues on the search results?

Or maybe someone can suggest me a plugin for this?

Thanks!

Yes... this is a very important feature... but as you can see, it's a very old request...

- Category set to Search engine

- Status changed from New to Closed

- Resolution set to Duplicate

Indeed.
