Description	
<p>I have been trying to figure out how to link a phone number so that a mobile user can click on it and call the number. The html code is quite simple however I cant figure out how to make it work in redmine. Any help would be deeply appreciated.</p> <p>Html Code example: <code>Call us free!</a</code></p>

History

#1 - 2012-05-11 21:15 - Mischa The Evil

- Subject changed from Text Syntax to Add support for the 'tel' URL protocol handler
- Category set to Text formatting

Dunno though if it is a (frequently) needed feature for most of the Redmine users.

#2 - 2013-04-09 16:55 - Filou Centrinov

Supported in RedCloth 4. More about RedCloth 4: #6269
