

Redmine - Feature #1091

Disabling default ticket fields per tracker

2008-04-23 05:53 - girish konnur

Status:	Closed	Start date:	2008-04-23
Priority:	Normal	Due date:	
Assignee:	Jean-Philippe Lang	% Done:	0%
Category:	Issues	Estimated time:	0.00 hour
Target version:	2.1.0		
Resolution:	Fixed		

Description

I want to create a tracker with all the custom fields. I don't want any default fields to be displayed in it

Ability to disable standard fields on a per tracker basis (#1091).

Revision 9914 - 2012-07-05 14:52 - Toshi MARUYAMA

generate translation files (#1091)

History

#1 - 2008-04-26 14:21 - Jean-Philippe Lang

- Subject changed from *How to create a tracker with all custom fields* to *Disabling default ticket fields*

- Category changed from *Custom fields* to *Issues*

- Target version deleted (0.7)

Default fields can not be disabled for now.

#2 - 2009-12-26 16:29 - Kamil .

Default fields can not be disabled for now

Are you going to provide the solution in the future?

#3 - 2009-12-29 00:36 - Mischa The Evil

Fixed the issue-relationships...

Fixed the issue-relationships...

Mischa, how about changing or adding to the title of this feature so that it describes the ones it duplicates also, more accurately.. ? I'm thinking a solution to this is more general than disabling the default ticket fields?

#5 - 2010-01-04 09:37 - Jan Ivar Beddari

Sorry, I see now that this is related to [#703](#) and together these are enough. Feel free to remove/delete these non-productive comments :)

I need to have a new issues interface that can be used by external parties. I don't want them to be able to see the "Assigned to" or "Due date" etc fields.

I am running 1.0.5 and I made the following changes to redmine/app/views/issues/_form.rhtml

24,26c24,28

```
<div id="attributes" class="attributes">  
< <%= render :partial => 'issues/attributes' %>  
< </div>
```

```
<% if User.current.roles_for_project(Herve Harster).length != 1 || User.current.roles_for_project(Herve Harster)[0].name != "Reporter" >  
<div id="attributes" class="attributes">  
<= render :partial => 'issues/attributes' >  
</div>  
< end %>
```

This will render the issue attributes IF AND ONLY IF the user is a "Reporter" role. This will also remove access to any custom fields. It is a quick and VERY dirty hack but it is enough to keep me going until this issue is solved.

This capability would be huge.

#13 - 2011-04-26 15:39 - Terence Mill

I opened a feature request a time ago, which will include all this kind of field configuration.

+1 !!!!!!!!!!!

#28 - 2012-06-13 20:28 - Lev D

+1 Yes, indeed!

No reason not to include this feature. Arranging the form to your liking would also be quite useful. Right now, I added 4 extra fields and my eyes are already jumping around the form looking for the the ones I need to fill in and for those I want to skip.

#29 - 2012-07-05 14:21 - Jean-Philippe Lang

- *File standard_fields.png added*

- *Subject changed from Disabling default ticket fields to Disabling default ticket fields per tracker*

- *Status changed from New to Closed*

- *Assignee set to Jean-Philippe Lang*

- *Target version set to 2.1.0*

- *Resolution set to Fixed*

Feature added in [#9912](#). You can now disable regular fields on the tracker form:

Trackers » Defect

Name *

Issues displayed in roadmap

Standard fields

- Assignee
- Category
- Target version
- Parent task
- Start date
- Due date
- Estimated time
- % Done

Custom fields

- Affected version
- Resolution

Save

#30 - 2012-08-12 13:34 - Terence Mill

That's required in issue [#8417](#)

+1 Yes, indeed!

Sure not.

#33 - 2013-01-05 04:37 - HU an

Why do I still can't disable the "Status/Priority/File attaching/Watchers" field? People wanna add a complete new issue tracker things like meeting/billing/sales...

Badly need to need this feature!

#34 - 2013-01-05 12:25 - Daniel Felix

Wan Zhenhuan wrote:

Badly need to need this feature!

Well, this could be solved after this patch is applied to the core [#12005](#).

Best regards,
Daniel

#35 - 2013-08-01 00:19 - Mischa The Evil

- Precedes Defect [#14584](#): Standard fields disabled for certain trackers still appear in email notifications added

#36 - 2013-12-04 05:37 - Toshi MARUYAMA

- Related to Defect [#12707](#): Typo in app/models/tracker.rb added

#37 - 2014-10-04 17:56 - Damon Tabb

But the "priority" field still seems permanent. Is there a way to include that in the list of default fields that can be disabled? I have a specific tracker that doesn't need this field and it's causing some mild confusion with issue reporters.

#38 - 2015-03-06 04:42 - Go MAEDA

- Related to Feature #6637: "unwanted" features as plugins added

#39 - 2015-09-25 13:31 - Ashish Agrawal

Is there a plugin to disable the Issue core fields such as assigned_to_id on a project level basis? As per the existing settings, only custom fields can be disabled on a per project basis. Standard fields can be disabled per tracker/role/user but not per project.

I want standard fields disable options same as custom fields in project settings also.

#40 - 2017-02-09 05:05 - Go MAEDA

- Has duplicate Feature #9736: custom field visibility based on tracker added

#41 - 2018-05-21 16:57 - Go MAEDA

- Has duplicate Feature #8150: Suggestion for editing Issue form added
