Is duplicate of Redmine - Feature #14462: Previous/next links may be lost aft...			Closed

History

#1 - 2012-05-24 09:58 - Etienne Massip

Can't reproduce on trunk.

Any installed plugin that could change the behavior?

#2 - 2012-05-24 10:10 - Arnaud Dulieu

- File *RedmineNextProv-closedstatus.pdf* added

This is the way to reproduce it:

- open a issue that is not in status closed
- update the issue
- change the status to close
- submit

The save is ok "Successful update." but then the next/previous links are not displayed anymore.

Plugin installed:

Redmine Close Button plugin

This is the Close Issue button plugin for Redmine

Are you sure they were displayed before you closed the issue?

I mean, they are displayed if only if you have a query applied whichever is the status of the issue.
