Resolution:	Fixed		**Affected version:**	2.0.0

Description

During saving new query without filled name is displayed validation error and name input field disappeares and is replaced by text:

```
<input id="query_name" name="query[name]" size="80" type="text" value="" />
```

After clicking on Save button the Firebug says "select is null" in file /javascripts/select_list_move.js on line 78.

My configuration:

- Ruby - 1.8.7
- Rails - 3.2.3

See attachment for details.
