

## Redmine - Defect #11066

**Can the issue number described in commit message link to related issue only when the specified keyword prefixed to the issue number?**

2012-05-31 13:58 - Peter Wang

<b>Status:</b>	Closed	<b>Start date:</b>											
<b>Priority:</b>	Normal	<b>Due date:</b>											
<b>Assignee:</b>	Jean-Philippe Lang	<b>% Done:</b>	0%										
<b>Category:</b>		<b>Estimated time:</b>	0.00 hour										
<b>Target version:</b>		<b>Affected version:</b>	2.0.0										
<b>Resolution:</b>	Invalid												
<b>Description</b>													
<p>In our company, there are more than one issue tracking systems That means the commit messages will be like "Fix AID <a href="#">#1</a>", "BID <a href="#">#2</a>", ...etc However, the issue ID belongs to other issue tracking system are not the one in the Redmine issue tracking system. That will lead to that the link in "AID <a href="#">#1</a>" will link to incorrect issue in Redmine issues</p> <p>Could it be possible to filter this kind of linking from commit messages?</p> <p>Below is my Redmine info</p> <p>Environment:</p> <table><tr><td>Redmine version</td><td>2.0.1.stable.9733</td></tr><tr><td>Ruby version</td><td>1.8.7 (i386-linux)</td></tr><tr><td>Rails version</td><td>3.2.3</td></tr><tr><td>Environment</td><td>production</td></tr><tr><td>Database adapter</td><td>MySQL</td></tr></table> <p>Redmine plugins: no plugin installed</p>				Redmine version	2.0.1.stable.9733	Ruby version	1.8.7 (i386-linux)	Rails version	3.2.3	Environment	production	Database adapter	MySQL
Redmine version	2.0.1.stable.9733												
Ruby version	1.8.7 (i386-linux)												
Rails version	3.2.3												
Environment	production												
Database adapter	MySQL												

### History

#### #1 - 2012-05-31 19:20 - Jean-Philippe Lang

- Status changed from New to Closed
- Resolution set to Invalid

In administration -> settings -> repositories, change "Referencing keywords" from \* to something like BID. Then only "BID [#2](#)" in the commit message will link the issue to the commit.

#### #2 - 2012-06-01 04:14 - Peter Wang

- Status changed from Closed to Reopened
- Assignee set to Jean-Philippe Lang

Sorry to reopen it that I still need to clarify something  
I know the configuration in "Referencing keywords" can make the commit appears in related Redmine issue page  
However, it will still make AID [#2](#), CID [#2](#), ... link to the Redmine issue#2, right?  
What I mean is to avoid AID [#2](#), CID [#2](#), ... from linking to Redmine issue#2.  
Can 2.0-stable make it possible?

#### #3 - 2012-06-01 19:57 - Jean-Philippe Lang

- Status changed from Reopened to Closed

1. Are you speaking about commits/issues relations?
2. Or maybe you just don't want that [#2](#) be turned into a link in the commit log display in Redmine?

If 1., there's a test for this ([source:trunk/test/unit/changeset\\_test.rb@9636#L54](https://source.trunk/test/unit/changeset_test.rb@9636#L54)).  
If 2., sorry it's not possible.
