Redmine - Defect #11192
Make repository identifier accept underscores
2012-06-19 04:25 - Daniel Stonier

Status: Closed
Priority: Normal
Assignee: Jean-Philippe Lang
Category: SCM
Target version: 1.4.5
Resolution: Fixed

Description
Project identifiers now permit `_` (app/models/project.rb), but repository identifiers do not (app/models/repository.rb). This causes an untuitive problem with redmine_scm.

If there is no reason not to have the same, the patch below addresses this.

Associated revisions
Revision 9875 - 2012-06-19 21:12 - Jean-Philippe Lang

Make repository identifier accept underscores (#11192).

History
#1 - 2012-06-19 09:52 - Toshi MARUYAMA
- Category changed from Code cleanup/refactoring to SCM
