

Redmine - Defect #11298

Issue API may not work on Ruby 1.9 in Redmine 1.4

2012-07-01 20:43 - Jan Losinski

Status:	Closed	Start date:	
Priority:	High	Due date:	
Assignee:	Jean-Philippe Lang	% Done:	0%
Category:	Issues	Estimated time:	0.00 hour
Target version:	1.4.5	Affected version:	1.4.4
Resolution:	Fixed		

Description

When you query the issue api in redmine running on Rails 1.9.3 it produces the following error:

```
Processing IssuesController#index to xml (for 127.0.0.1 at 2012-07-01 20:16:47) [GET]
Parameters: {"key"=>"xxxxxxx", "fields"=>["status_id"], "operators"=>{"status_id"=>"o"}, "values"=>{"status_id"=>[1]}, "per_page"=>"10", "controller"=>"issues", "action"=>"index", "project_id"=>"pycroft", "format"=>"xml"}
Rendering issues/index

Rendering rescues/layout (internal_server_error)

That results in an 500 internal server error and makes the api useless. You need to prefix The Time class in <http://www.redmine.org/projects/redmine/repository/entry/branches/1.4-stable/lib/redmine/views/builders/xml.rb#L32> with :: to tell ruby you mean the Time class from the global Namespace! Otherwise ruby thinks is is a constant in the current namespace.

You do this already in the 2.0 branch like you can see in <http://www.redmine.org/projects/redmine/repository/entry/branches/2.0-stable/lib/redmine/views/builders/xml.rb#L34>. Please fix this also in 1.4 or do not tell us that 1.4 also works with 1.9.3.

Associated revisions

Revision 10299 - 2012-09-06 19:23 - Jean-Philippe Lang

Add namespace to Time (#11298).

ruby 1.9.3 ...

#2 - 2012-07-04 20:42 - Jean-Philippe Lang

- Target version set to 1.4.5

It seems to happen under certain circumstances only because tests are OK with Redmine 1.4.4 and ruby1.9.3:
<http://www.redmine.org/builds/index.html>

The change you mention was required when upgrading to Rails 3.2 ([r9528](#)).

#3 - 2012-07-04 20:43 - Jean-Philippe Lang

What is your exact Redmine version BTW?

#4 - 2012-07-04 23:03 - Jan Losinski

What is your exact Redmine version BTW?

The "information" in the admin section tells 1.4.4.stable. I installed it from Debian Testing.

```
ruby --version
ruby 1.9.3p194 (2012-04-20 revision 35410) [x86_64-linux]
```
