

## Redmine - Defect #11389

### Warning in awesome\_nested\_set.rb

2012-07-13 16:42 - Jean-Sébastien Pédrón

<b>Status:</b>	Closed	<b>Start date:</b>	
<b>Priority:</b>	Low	<b>Due date:</b>	
<b>Assignee:</b>		<b>% Done:</b>	0%
<b>Category:</b>	Code cleanup/refactoring	<b>Estimated time:</b>	0.00 hour
<b>Target version:</b>	2.1.0	<b>Affected version:</b>	2.0.3
<b>Resolution:</b>	Fixed		
<b>Description</b>			
We have the following warning:			
<pre>DEPRECATION WARNING: The InstanceMethods module inside ActiveSupport::Concern will be no longer included automatically. Please define instance methods directly in CollectiveIdea::Acts::NestedSet::Model instead. (called from include at /var/lib/redmine/lib/plugins/awesome_nested_set/lib/awesome_nested_set/awesome_nested_set.rb:58)</pre>			
It doesn't do any harm on our side, but it seems related to issue <a href="#">#11072</a> .			
Anyway, to fix it, I followed what I found in the following answer on Stackoverflow and it did work: <a href="http://stackoverflow.com/a/8684885">http://stackoverflow.com/a/8684885</a> (eg. removing the "module InstanceMethods" declaration and the corresponding "end").			
Usual informations:			
<ul style="list-style-type: none"><li>• Redmine 2.0.3 from SVN <a href="#">r9959</a> (branches/2.0-stable)</li><li>• Ruby 1.8.7</li><li>• Rails 3.2.6</li><li>• Debian Squeeze</li></ul>
