

## Redmine - Feature #11413

### Limit use of REST API access by the role of the user

2012-07-16 18:25 - Kenichi Maehashi

<b>Resolution:</b>			
<b>Description</b>			
<p>In publicly-registerable deployment of Redmine, I don't want users to use the REST API. However the administrator (me) still need to use the API to integrate Redmine with other systems.</p> <p>It is preferable if use of the REST API can be limited by the role of the user.</p>
