

Redmine - Defect #11491

JSON / XML format : delete / put dont send any data

2012-07-24 10:50 - Anonymous

Status:	Closed	Start date:	
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	REST API	Estimated time:	0.00 hour
Target version:		Affected version:	2.0.3
Resolution:	Duplicate		
Description			
<p>I use spore in perl program and I have test it well with JSON format.</p> <p>The REST::API is not very compliant on some action.</p> <p>For POST / GET with have a JSON so the serializer can handle it properly and transform the result in a perl structure.</p> <p>for DELETE / PUT the result is BLANK, only the status can tell if the operation is good or no. But when the serializer try to transform the BLANK result into a JSON it failed !</p> <p>So The DELETE or UPDATE is effective but we got an error !</p> <p>Could you please provide always a JSON or XML result in any operation ? even a empty '{}' is sufficient.</p> <p>Thanks</p>
