

## Redmine - Feature #11498

### Add --no-account-notice option for the mail handler script

2012-07-24 14:26 - Alex Shulgin

|   |                    |                        |                   |
|---|--------------------|------------------------|-------------------|
| <b>Status:</b>  | Closed             | <b>Start date:</b>     |                   |
| <b>Priority:</b>  | Normal             | <b>Due date:</b>       |                   |
| <b>Assignee:</b>  | Jean-Philippe Lang | <b>% Done:</b>         | 0%                |
| <b>Category:</b>  | Email receiving    | <b>Estimated time:</b> | 0.00 hour         |
| <b>Target version:</b>  | 2.3.0              |                        |                   |
| <b>Resolution:</b>  | Fixed              |                        |                   |
| <b>Description</b>  |                    |                        |                   |
| Sometimes you want to set up a project which accepts email from new users (as in --unknown-user=create,) but you don't want Redmine to reply with account information for the newly created users (to avoid mailing back to spammers, etc.) |                    |                        |                   |
| This patch adds a Redmine's mail handler script option just for that.   |                    |                        |                   |

#### Associated revisions

##### Revision 11525 - 2013-03-03 09:41 - Jean-Philippe Lang

Mail handler: adds --no-account-notice option for not sending account information to the created user (#11498).

##### Revision 11581 - 2013-03-10 13:36 - Jean-Philippe Lang

Merged r11525 from trunk (#11498).

#### History

##### #1 - 2013-01-15 12:47 - Gregory Engels

+1 (please add this patch to the main release - we need this feature)

##### #2 - 2013-02-26 03:40 - Arnis Juraga

I think this is duplicate: [#10178](#)

##### #3 - 2013-03-03 09:42 - Jean-Philippe Lang

- Tracker changed from Patch to Feature
- Subject changed from Added --no-account-notice option for the mail handler script to Add --no-account-notice option for the mail handler script
- Status changed from New to Resolved
- Assignee set to Jean-Philippe Lang
- Target version set to 2.3.0
- Resolution set to Fixed

Feature added in [r11525](#), thanks.

##### #4 - 2013-03-10 13:36 - Jean-Philippe Lang

- Status changed from Resolved to Closed

Merged.

##### #5 - 2013-03-18 13:16 - Terence Mill

Howto expanded: [RedmineReceivingEmails](#)

#### #6 - 2013-04-07 22:05 - Brandon Bertelsen

This feature doesn't seem to work in cron. Example:

```
*/30 * * * * cd /usr/share/redmine && rake redmine:email:receive_imap RAILS_ENV="production" port=993 ssl=true host=imap.gmail.com
username={} password={} project=Support status=New priority=High tracker=Support unknown_user=create no_permission_check=1
no_account_notice=1
```

The above still sends account notification emails to new email addresses.

#### #7 - 2013-04-08 15:46 - Alex Shulgin

- File *Fix-email-rake-tasks-to-also-support-no\_account\_notice-option.patch* added

username={} password={} project=Support status=New priority=High tracker=Support unknown_user=create no_permission_check=1
no_account_notice=1
```

The above still sends account notification emails to new email addresses.

Hm, indeed. The fix is trivial (attached.)

Now that I think about it, why don't we extract the options thing from the 3 rake tasks, like so:

```
task :setup_options => :environment do
  @options = { :issue => {} }
  %w(project status tracker category priority).each { |a| @options[:issue][a.to_sym] = ENV[a] if ENV[a] }
  %w(allow_override unknown_user no_permission_check no_account_notice).each { |a| @options[a.to_sym] = ENV[a] if ENV[a] }
end

task :read => :setup_options do
  MailHandler.receive(STDIN.read, @options)
end
```

#### #8 - 2013-04-08 15:49 - Alex Shulgin

- File *Fix-email-rake-tasks-to-also-support-no\_account\_notice-option.patch* added

Ugh, sorry: not enough coffee. Attaching the correct patch.

#### #9 - 2013-04-08 16:03 - Etienne Massip

Could you please post a new issue since this one has been closed for [2.3.0](#)?

#### #10 - 2014-12-02 01:34 - Go MAEDA

- Related to Feature #8673: *Disabling user creation emails.* added

#### #11 - 2018-02-03 03:58 - Mischa The Evil

- Has duplicate Feature #7919: *Adding option to disable activation mail for users created via email unknown\_user=create* added

#### #12 - 2019-02-11 01:31 - Go MAEDA

- Has duplicate Feature #6068: *Make a Silent Registration for new Mail Customers* added
