Description

In any of the sections where it is possible to attach a file I get the following error; the log says:

```
Processing ProjectsController#add_file (for 10.0.0.51 at 2008-04-30 16:59:24) [POST]
```

```
Session ID: 8c3a0afca9fb80fa47fe03e5bf72e6da
```

```
Parameters: {"commit"=>"Aggiungi", "action"=>"add_file", "id"=>"proj", "controller"=>"projects", "version_id"=>"16", "attachments"=>{"1"=>{"description"=>"Kick-off", "file"=>#<File:C:/DOCUME~1/ADMINI~1/IMPOST~1/Temp/CGI.1280.1>}}
```

```
NoMethodError (undefined method `description=' for #<Attachment:0x6f5692c>):
```

```
c:/ruby/lib/ruby/gems/1.8/gems/activerecord-1.15.6/lib/active_record/base.rb:1860:in `method_missing'
```

```
.....
```

I'm now using the 1388 revision, but I noticed the failure since about revision 1300.

History

#1 - 2008-04-30 17:58 - Andrea Colleoni

I'm sorry but I'm quite new to Ruby on Rails... Reading RedMine docs, I've upgraded rails to 2.0.2 anyway the problem still persists:

```
Processing ProjectsController#add_file (for 10.0.0.51 at 2008-04-30 17:54:17) [POST]
```

```
Session ID: 8c3a0afca9fb80fa47fe03e5bf72e6da
```

```
Parameters: {"commit"=>"Aggiungi", "action"=>"add_file", "id"=>"proj", "controller"=>"projects", "version_id"=>"16", "attachments"=>{"1"=>{"description"=>"Kick-off", "file"=>#<File:C:/DOCUME~1/ADMINI~1/IMPOST~1/Temp/CGI.836.1>}}
```

```
NoMethodError (undefined method `description=' for #<Attachment:0x6f8a510>):
```

```
c:/ruby/lib/ruby/gems/1.8/gems/activerecord-2.0.2/lib/active_record/attribute_methods.rb:200:in `method_missing'
```

```
.....
```

Thanks a lot for this very useful project.
