

Redmine - Defect #11511

Confirmation page has broken HTML when a project folding sub project is deleted

2012-07-26 06:58 - Haruka Yoshihara

Status:	Closed	Start date:	
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	Projects	Estimated time:	0.00 hour
Target version:	2.0.4	Affected version:	
Resolution:	Fixed		
Description			
<p>I created a new project in Redmine (In "Home" page, I clicked [Administration], next [Projects], third [New Project]. I filled the necessary fields in "New project" page and clicked [Create] button finally). This new project is "PARENT-PROJECT".</p> <p>I also created a new sub project of "PARENT-PROJECT", named "SUB-PROJECT".</p> <p>When I created "SUB-PROJECT", I selected "PARENT-PROJECT" in "Subproject of" drop-down list.</p> <p>So I will delete the "PARENT-PROJECT" (In "Home" page, I clicked [Administration], next [Projects], finally [Delete] on right side of "PARENT-PROJECT" column), but "Confirmation" page has broken HTML.</p> <pre><p>PARENT-PROJECT
 Are you sure you want to delete this project and related data?
Its subproject(s): &lt;strong>SUB-PROJECT&lt;/strong> will be also deleted. </p></pre> <p>Open <code></code> tag and close <code></code> tag are escaped around "SUB-PROJECT".</p> <p>For example:</p> <p>Before: PARENT-PROJECT Are you sure you want to delete this project and related data? Its subproject(s): <code>SUB-PROJECT</code> will be also deleted.</p> <p>After: PARENT-PROJECT Are you sure you want to delete this project and related data? Its subproject(s): SUB-PROJECT will be also deleted.</p> <p>The strong tags put stronger emphasis on "SUB-PROJECT" string. This case, "Confirmation" page has broken HTML. I use ruby 1.9.3 and Rails 3.2.6.</p>
