Merged r10221 from trunk to 1.4-stable (#11665)

force set default document category if it is not set on database.

Revision 10226 - 2012-08-21 19:15 - Toshi MARUYAMA

set default category_id instead of the object (#11665)

Rails 2.3 still has issues with synchronizing the association_id
and association attributes of an object. That means, if you set the
association with an object first and then just set the id afterwards,
the object wins and the setting of the id gets lost.

This is not an issue in Rails >= 3.1 anymore.

Contributed by Holger Just.

Revision 10227 - 2012-08-21 19:16 - Toshi MARUYAMA

Merged r10219 from trunk to 1.4-stable (#11665)

add functional test to create non default document category.

Revision 10229 - 2012-08-22 10:56 - Toshi MARUYAMA

Merged r10219 from trunk to 2.0-stable (#11665)

add functional test to create non default document category.

Revision 10230 - 2012-08-22 18:18 - Toshi MARUYAMA

add check default document category is not defined on database in tests (#11665)

Revision 10233 - 2012-08-23 00:44 - Toshi MARUYAMA

Merged r10230 from trunk (#11665)

add check default document category is not defined on database in tests.

History

#1 - 2012-08-29 13:36 - Toshi MARUYAMA

- Status changed from Confirmed to Closed

- Resolution set to Fixed

Fixed in 1.4-stable(Rails2) [r10233](#).
2.0-stable(Rails3) has no defect.

#2 - 2012-08-29 13:38 - Toshi MARUYAMA

- Subject changed from Document category is not saved properly to New document category is not saved properly
