

## Redmine - Defect #11722

### Atom feed for a query doesn't show the same results as query when groups involved

2012-08-28 09:52 - Carlos Peñas

<b>Target version:</b>		<b>Affected version:</b>	2.0.3
<b>Resolution:</b>	Invalid		

#### Description

Seems like if you made a filter for all tickets assigned to <<me>> it resolves your group belonging, showing the tickets assigned to user and the tickets assigned to groups. But if you pick the Atom feed group issues disappear.

I noticed it because I use firefox live bookmarks, after leave unnoticed some issues :P

#### History

- Status changed from *New* to *Resolved*

Seems some sort of cache issue. At the next day of alter the queries after a migratios was solved. I haven't time to reproduce it so I'll close it until I can find how to reproduce this bug.
