<b>Target version:</b>	2.0.4	<b>Affected version:</b>	2.0.3
<b>Resolution:</b>	Fixed		

**Description**

You can't override mailer views as you can other views from within a redmine plugin.

I suspect the cause of the problem is inside `/lib/redmine/plugin.rb` line 83:-  
<http://www.redmine.org/projects/redmine/repository/entry/trunk/lib/redmine/plugin.rb>

```
if File.directory?(view_path)
  ActionController::Base.prepend_view_path(view_path)
end
```

Should be:-

```
if File.directory?(view_path)
  ActionController::Base.prepend_view_path(view_path)
  ActionMailer::Base.prepend_view_path(view_path)
end
```

Because otherwise, as ActionMailer and ActionController inherit from the same class (AbstractController), any extra view path given to the ActionController won't be available to the ActionMailer.

Redmine version: 2.0.3.stable.10173 but it seems to have not been fixed yet in trunk too.

#### Associated revisions

##### Revision 10304 - 2012-09-06 19:34 - Jean-Philippe Lang

Let plugin override mailer views (#11776).

#### History

##### #1 - 2012-09-04 15:42 - Jean-Philippe Lang

- Category set to *Plugin API*

- Target version set to *2.1.0*

##### #2 - 2012-09-06 19:35 - Jean-Philippe Lang

- Status changed from *New* to *Closed*

- Assignee set to *Jean-Philippe Lang*

- Target version changed from *2.1.0* to *2.0.4*

- Resolution set to *Fixed*

Committed in [r10304](#) and merged in 2.0-stable.
