<b>Target version:</b>	
<b>Resolution:</b>	
<b>Description</b>	
This will be helpful in this case	
<ol style="list-style-type: none"><li>1. Create project</li><li>2. Create new issue</li><li>3. Write all issue description, data ... ect ect</li></ol>	
You forget to add users to the project, so open a new tab and add members to the project then close the tab in the issue page, in the user select, you have only yourself. so A <b>refresh fields</b> will be helpful in this case	
Workaround:	
<ul style="list-style-type: none"><li>- Remove the subject and submit, redmine will refresh the page giving an error about missing subject. and All frieds are updated</li></ul>
