<b>Target version:</b>	2.1.1	<b>Affected version:</b>	2.0.0
<b>Resolution:</b>	Fixed		
<b>Description</b>			
default settings in format are overwritten by empty separator, delimiter, precision in currency block which leads to following error			
ActionView::Template::Error (wrong argument type nil (expected Fixnum)):			
actionpack (3.2.6)			
I do not know how to fix this while not changing the de.yml local of redmine

When do you get the error exactly?

##### #3 - 2012-09-25 19:07 - Miko Kinski

see [https://github.com/mkinski/redmine\\_inventory\\_manager](https://github.com/mkinski/redmine_inventory_manager)

If I have some price value like 0.2 in Dollar (English) and Euro (Spain) it works perfect but If I switch to german language it leads to internal error because of number\_to\_currency function

I am using redmine v2.0.4
