Redmine - Feature #11963

Hide the estimated times on issues for certain roles

2012-09-27 09:09 - Jiří Křivánek

Status:	Closed	**Start date:**	
Priority:	Normal	**Due date:**

Category:	Issues permissions	**Estimated time:**	0.00 hour
Target version:			
Resolution:	Duplicate		

Description

Hello,

we are successfully using Redmine for years. But in a very complex way - hundreds of projects and sub-projects, thousands of tasks, hundreds of users.

At this moment we would like to let some of our customers to enter the Redmine as well - for the classical bug reporting/tracing workflow.
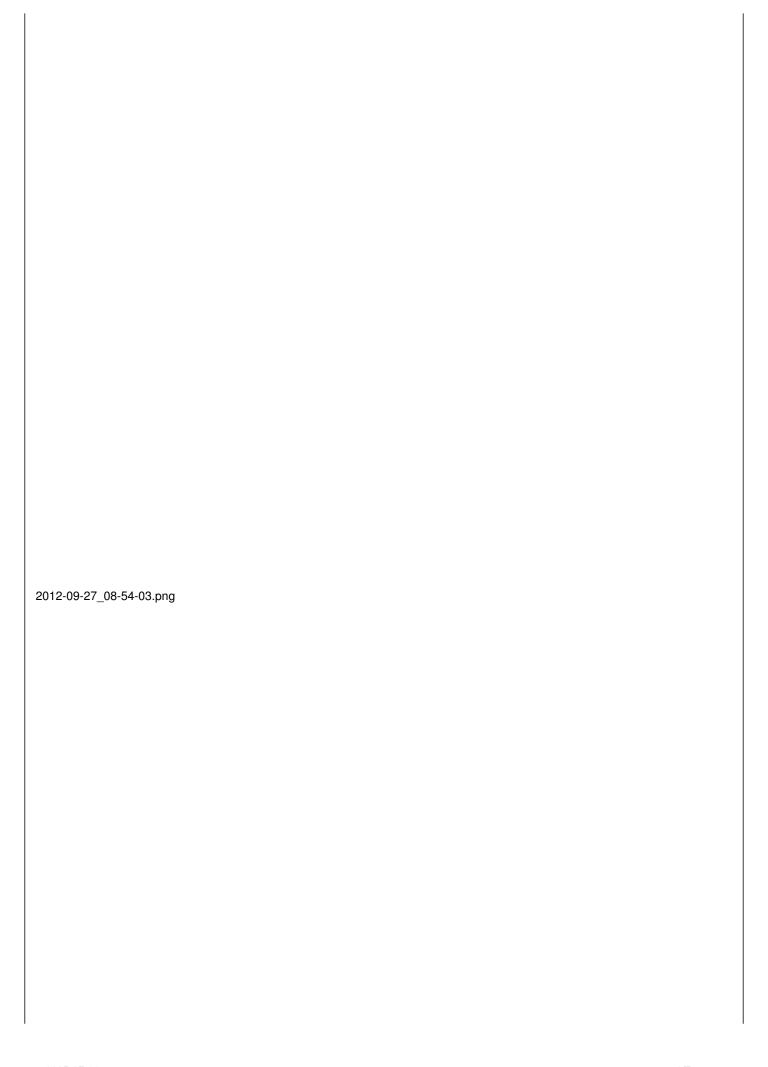

To be able to do that, we need to **hide** some internal information (particularly all the information which could be misinterpreted by them - like time estimates, spent time records, etc.) from the customers. We spent a few days with trying to create the role for the customer - quite successfully but not completely - that is why I am posting here.

We did the tests on both 1.3x and 2.0.x versions...

_____

Currently, the only thing we need to hide before we let our customers to enter the Redmine is demonstrated by the attached screenshots below:

- The red highlight point out what our customers cannot see and we were not able to get rid of it.
- The second screenshot details the role settings (perhaps you point us to something which we are still missing after all those tests).

History

#1 - 2012-10-02 09:56 - Jiří Křivánek

- File 2012-10-02_09-52-54.png added

I have just realized one more consequence of fixing this problem:
  2012-10-02_09-52-54.png

#2 - 2012-10-12 11:30 - Jean-Philippe Lang

- Tracker changed from Defect to Feature

- Subject changed from Cannot hide the estimated times on issues to Hide the estimated times on issues for certain roles

#3 - 2013-05-01 15:47 - Dominique Lederer

+1

i created a plugin that hides "estimated_hours" from most of this views, take a look at https://github.com/return1/redmine_hide_estimated_hours

i would really like to see this in Redmine, because for some stuff i am not able to do this with a plugin, for example to completely hide
estimated_hours from the Issues Journal. Also hiding from the Issue PDF via Plugin is not really efficient at the moment.

+1

#5 - 2013-05-20 16:24 - Filou Centrinov

Duplicate of [#12005](#) ?

#6 - 2013-05-20 19:47 - Terence Mill

Yes it is a duplicate [#12005](#), which allows hiding optionally for every field (except topic and status).

#7 - 2013-05-20 19:52 - Filou Centrinov

- Status changed from New to Closed

- Resolution set to Duplicate

#8 - 2013-07-16 21:07 - Martin Dubé

I would also like to be able to hide estimated time.

Since Jean-Philippe Lang stated that proposed changes in [#12005](#) will not get implemented in the near future (
http://www.redmine.org/issues/12005#note-62) maybe this one could be reopened. Implementing a new right (or even used the current one allowing to see spent time) would be fine in my opinion.

+1

This really is a show stopping issue for client access. Redmine is otherwise a great product (with plugins).

#10 - 2013-08-02 02:42 - Jeremy Bailey

+1

Also +1-ing [#12005](#), since that seems more ambitious and will probably take longer to implement.

#11 - 2013-11-19 09:42 - Pavel Potcheptsov

+ 1

#12 - 2013-11-29 09:03 - Christian S.

+1 this is needed if you want to give access to your customers, to report issues.

#13 - 2013-12-04 15:48 - Guillaume C

+1

#14 - 2014-03-10 06:17 - Richard Gunn

+1 I logged a similar request Issue [#16095](#)

The issue was set to invalid (i.e. ignored). Without such an enhancement we cannot provide customer access.

I forked the Dominique Lederer's plugin and I added a new permission called *hide estimated time*. This new permission allow user to see spent time but not the estimated time.

#31 - 2020-07-16 19:23 - Ivan Tsybanenko

+1 (for 3.4.x & 4.x versions)

#32 - 2020-10-16 14:44 - Andrea Valle

+1

It seems very interesting also: https://github.com/nanego/redmine_customize_core_fields

It works great for me with all core fields.
