

## Redmine - Feature #11977

### REST API for repositories

2012-09-28 01:34 - Lluís Vilanova

<b>Status:</b>	New	<b>Start date:</b>	
<b>Priority:</b>	Normal	<b>Due date:</b>	
<b>Assignee:</b>		<b>% Done:</b>	0%
<b>Category:</b>	REST API	<b>Estimated time:</b>	0.00 hour
<b>Target version:</b>			
<b>Resolution:</b>			
<b>Description</b>			
Adding the RESTful GETs for repositories would allow proper remote project operation.  For example, this would allow a proper implementation of reposman ( <a href="#">#11976</a> ).

#### History

##### #1 - 2014-09-03 02:08 - Mélanie Gault

I'm very interested by this feature too..

##### #2 - 2014-09-13 15:10 - Guillaume Perréal

I would like to see this feature implemented too. It would allow to write a proper implementation of a remote repository manager.

Also very keen for this. Repositories are a brilliant feature of Redmine but we make a lot of use of the API and are limited without them. Purely RO queries/GETs of existing Repositories would be a great start.
