<b>Category:</b>	SCM	<b>Estimated time:</b>	0.00 hour
<b>Target version:</b>	0.7.2	<b>Affected version:</b>	
<b>Resolution:</b>	Fixed		
<b>Description</b>			
<p>"View differences" of one file at /repositories/revision/ fails. This problem happens depending on directory depth of repository URL. 'http://svn.example.com/svn/dir' is OK but 'http://svn.example.com/svn/dir/subdir' is NG.</p> <p>How to reproduce:</p> <p>Consider the following conditions.</p> <ul style="list-style-type: none"><li>• Project name is "example_project".</li><li>• Repository URL is <a href="http://svn.example.com/svn/dir/subdir/">http://svn.example.com/svn/dir/subdir/</a></li><li>• A revision contains some file like "foo.rb" which url is "http://svn.example.com/svn/dir/subdir/foo.rb"</li></ul> <ol style="list-style-type: none"><li>1. Set repository URL to "http://svn.example.com/svn/dir/subdir/"</li><li>2. View the revision.</li><li>3. click "View differences" of "foo.rb". You will see error message "The entry or revision was not found in the repository".</li></ol> <p>The cause of this problem is that the page "/repositories/diff/" expects the path "/project_name/foo.rb" but "View differences" passes "/project_name/subdir/foo.rb".</p>

#### Associated revisions

##### Revision 1446 - 2008-05-24 19:58 - Jean-Philippe Lang

Fixed: View differences for individual file of a changeset fails if the subversion repository URL doesn't point to the repository root (#1209, #1262, #1275).

#### History

##### #1 - 2008-05-13 14:51 - Marco Tralles

i've the same problem using redmine 0.7.1 on my server. The production-log shows:

```
Processing RepositoriesController#diff (for 84.190.180.27 at 2008-05-13 15:04:58) [GET]
  Session ID: 3f4d9273a4c8af0b2e6c9269805ffabf
  Parameters: {"rev"=>"39", "action"=>"diff", "id"=>"project", "controller"=>"repositories", "path"=>["filename"]}
Rendering template within layouts/base
Completed in 0.11232 (8 reqs/sec) | Rendering: 0.02183 (19%) | DB: 0.00000 (0%) | 500 Internal Server Error [http://redmine.domain.tld/repositories/diff/project/filename?rev=39]
```

##### #2 - 2008-05-16 14:53 - Chris Platts

Same here. This (for me) is a regression, since the bug was not present in 0.7-stable (currently running **0.7.devel.1432**)

My project's repository URL is set to <http://some.server.com/thisProject/>

The View Differences link is passing <http://some.server.com/thisProject/thisProject/>...

##### #3 - 2008-05-24 19:57 - Jean-Philippe Lang

- Category set to SCM

- Status changed from New to Closed

- *Target version set to 0.7.2*
- *Resolution set to Fixed*

Fixed in [r1446](#).
