

Redmine - Feature #12125

Set filename used to store attachment uploaded via the REST API

2012-10-17 13:30 - Hannes Meier

Status:	Closed	Start date:	
Priority:	Normal	Due date:	
Assignee:	Jean-Philippe Lang	% Done:	0%
Category:	REST API	Estimated time:	0.00 hour
Target version:	2.2.0		
Resolution:	Fixed		
Description			
<p>i upload a lot of jpegs for every project via rest-api. When a project it finished it would be great if i could zip the projectattachements.</p> <p>Therefore it would be great if my uploadfilenames would be adoptet for the files.</p> <p>At the moment my api-uploaded files have a timestamp (and the token?) as filename. Even no fileextension.</p> <p>121009092213_4665b2f7563a436f5f33df856cd9fe8d</p> <p>Manually uploaded files have the timestamp and their uploadedname, like: 121015105646_X01_010_010.jpg</p> <p>Am i using the rest-api wrong or is this feature not included yet?</p> <p>my reduced python example:</p> <pre>url = self.__url("uploads.json") headers = {'content-type': 'application/octet-stream'} data = open(attachment).read() r = requests.post(url, data = data, headers = headers) token = json.loads(r.text) token = token['upload']['token']</pre> <p>and</p> <pre>payload = dict(issue = dict (uploads = dict (upload = dict (token = token, filename = filename,),),)) r = requests.put(self.__url("issues/"+str(ticketid)+".json"), data = json.dumps(payload), headers = self.header)</pre>

Associated revisions

Revision 10678 - 2012-10-18 23:06 - Jean-Philippe Lang

Let the attachment filename be specified on upload (#12125).

History

#1 - 2012-10-18 23:00 - Jean-Philippe Lang

- Tracker changed from Defect to Feature

- Subject changed from REST-API: Own Filename for uploaded files via API to Set filename used to store attachment uploaded via the REST API

- Assignee set to *Jean-Philippe Lang*
- Target version set to *2.2.0*

There's no option for now to set the actual file name of the attachment when uploading via the rest API.

#2 - 2012-10-18 23:08 - Jean-Philippe Lang

- Status changed from *New* to *Closed*
- Resolution set to *Fixed*

Implemented in [r10678](#). You can now POST to `/uploads.xml?filename=image.jpeg` to set the filename of your attachment on the file system.

#3 - 2012-10-22 13:15 - Hannes Meier

wow! that was fast!
thank you very much.
great help!

#4 - 2016-02-04 12:15 - Simple Dino

It would be really great to update the documentation ;)
