Assignee:		% Done:	0%
Category:	Translations	Estimated time:	0.00 hour
Target version:	2.1.3		
Description Hi, again a language patch. By the way... where can i find these labels to translate them to the right context? label_attribute_of_project: Project's %{name} label_attribute_of_author: Author's %{name} label_attribute_of_assigned_to: Assignee's %{name} label_attribute_of_fixed_version: Target version's %{name} I haven't seen them in Redmine yet. Are they just zombies or do they have some reference?			
Related issues: Related to Redmine - Feature #8161: Ability to filter issues on project custo... <div>Closed2011-04-15</div>

label_attribute_of_project: Project's %{name}
label_attribute_of_author: Author's %{name}
label_attribute_of_assigned_to: Assignee's %{name}
label_attribute_of_fixed_version: Target version's %{name}

I haven't seen them in Redmine yet. Are they just zombies or do they have some reference?

They are used in issue filters. Say you have a "Client" custom field on your projects, you can now filter issues by "Project's client" (issues that belong to all projects of a given client).

Hope this helps.

Thank you Jean-Philippe!

Here are the latest translations for those labels. Sorry for the lack of a diff, but until this evening I haven't the ability to generate them.

label_attribute_of_project: %{name} des Projekts
label_attribute_of_author: %{name} des Autors
label_attribute_of_assigned_to: %{name} des Bearbeiters
label_attribute_of_fixed_version: %{name} der Zielversion

#5 - 2012-10-29 15:44 - Toshi MARUYAMA

- *Status changed from Closed to Reopened*

#6 - 2012-10-29 17:20 - Daniel Felix

Thanks for implementation. I think this could be closed. :-)

#7 - 2012-10-30 03:48 - Toshi MARUYAMA

- *Status changed from Reopened to Closed*

Commmitted in trunk and 2.1-stable, thanks.
