Redmine - Defect #1225

Textile: bold, italics, underline, etc... not working after parentheses

2008-05-12 17:30 - Philip Hofstetter

Status:	Closed		**Start date:**	2008-05-12
Priority:	Low		**Due date:**	
Assignee:			**% Done:**	0%
Category:	Wiki		**Estimated time:**	0.00 hour
Target version:	0.7.2			
Resolution:	Fixed		**Affected version:**	0.7.1

Description

the textile inline formating markers (*, _, +) don't work right after parentheses. An example is the following which should of course be marked as italics, but isn't:

some italizised text

The following patch to redcloth.rb fixes the problem:

```

            re =
                case rtype
                when :limit
-                    /(^|[>\s])
+                    /(^|[>\W])
                    (#{rcq})
                    (#{C})
                    (?::(\S+?))?
                    ([^\s\-].*?[^\s\-]|\w)
                    #{rcq}
-                    (?=[[:punct:]]|\s|$)/x
+                    (?=[[:punct:]]|\W|$)/x
                else
                    /(#{rcq})
                    (#{C})
```

Maybe this should be reported upstream?

The regex used only matches the markers following (or before) spaces, when instead it's better to mark after any non-word character.

Hope this helps

Philip

Revision 1434 - 2008-05-18 10:24 - Jean-Philippe Lang

Fixed: bold, italics, underline not working within parentheses (#1225).

History

#1 - 2008-05-12 23:38 - Philip Hofstetter

the sample line given was, of course wrong as I left out the thing causing the bug: The parentheses:

(*this should be italizised but is not*)

The patch is correct though :-)

Philip

#2 - 2008-05-18 10:24 - Jean-Philippe Lang

- Status changed from New to Closed

- Target version set to 0.7.2

- Resolution set to Fixed

Fixed in [r1434](#).
I didn't use \W since it would match too often, even when it's not wanted.
