## History

**#1 - 2012-10-29 17:18 - Daniel Felix**

This could be enhanced by an project specific order for all ticket fields.

This way you could implement some things like
1. field = custom field, 2. field = Assign to, 3. field = custom field, 4. field = target version
etc. etc...

This would be helpful in some of my current projects.

**#2 - 2012-10-30 08:33 - Luis Serrano Aranda**

I've seen that can be sorted globally but not in each particular project.

**#3 - 2012-10-30 11:14 - Daniel Felix**

Yes they could be sorted, but just the custom fields itself.
For example:
"Team" should be first, "Manager" should be the second custom field.

But I don't have the ablility to sort a specific custom field in front of a redmine specific field like assignee. Hope this helps to get the point? :-)
