Description

Document titles are limited to 60 characters. Some of the documents related to a project that one might want to track (e.g., scientific literature) have titles are are much longer than 60 characters. It would be desirable to have this limit raise, especially since I don't think there is any technical reason for not doing so.

Associated revisions

Revision 14261 - 2015-05-10 10:45 - Jean-Philippe Lang

Raises 60-character limit for document titles to 255 (#12312).
