<b>Target version:</b>	2.1.4	<b>Affected version:</b>	1.4.5
<b>Resolution:</b>	Fixed		
<b>Description</b>			
Changesets aren't read after clear_changesets call at least in case of Git. The method clear_changesets clears all changesets but leaves extra_info in repositories table and therefore changesets aren't read after clear_changesets call.			
The attached patch reset extra_info column of the affected repository in clear_changesets method.
