Redmine - Defect #12528

Handle temporary failures gracefully in the external mail handler script

2012-12-06 23:51 - Alex Shulgin

Status:	Closed		**Start date:**	
Priority:	Normal		**Due date:**

Target version:	2.3.0			
Resolution:	Fixed		**Affected version:**	

Description

Currently, the external mail handler (rdm-mailhandler.rb) would report permanent failure in case the Redmine instance at given --url is down.

This is a problem, since one need to shut down email service around Redmine upgrade or maintenance. Attached patch fixes this by making the script exit with 75 status which is treated as 'temporary failure' by the mail subsystem, effectively re-attempting submission later.

Patch against 2.1-stable.

Associated revisions

Revision 10954 - 2012-12-08 10:14 - Jean-Philippe Lang

MailHandler: exit with 75 when a SystemCallError is raised (#12528).

History
